

IEEE International Magnetism Conference (INTERMAG) 2023 Sendai

INTERMAG 2023

Sponsor IEEE (The Institute of Electrical and Electronics Engineers)
Magnetism Society

Co-Sponsor The Magnetism Society of Japan

Dates May 15th(Mon) -19th(Fri), 2023

Place Sendai, Miyagi, Japan

Venue Sendai International Center

Important Dates of Intermag 2023

Invited Speaker & Symposia Nominations Period	Late October – Late November, 2022
Digest Submission Period	Late November, 2022 – Mid-January, 2023
Best Student Presentation Award Application Period	Late November, 2022 – Mid-February, 2023
Conference Registration Opens	Late January, 2023
Magnetism as Art Submission Period	Early February – Early April, 2023
Author Notifications Sent	Early February, 2023
Intermag 2023	May 15 – May 19, 2023

New Digest Format for Intermag 2023

Intermag moves to two-page digests

Intermag 2023 will use a new, two-page digest format. Accepted digests will be published in IEEE Xplore and will receive a unique digital object identifier (DOI). Along with other conference-related material, IEEE Xplore will serve as an archival record of the conference.

In addition to publication of digests on IEEE Xplore, authors will also continue to be able to publish their full papers in IEEE Transactions on Magnetics (and most other journals).

Welcome to Sendai

Sendai, the capital of Miyagi prefecture, is called "Mori no Miyako" (City of Green), because of the large amount of greenery.

We warmly welcome you to Sendai and hope you will enjoy its nature, food and history.

Gyu-tan (beef tongue): Sendai is famous for its gyu-tan (beef tongue) dishes. The best way to enjoy beef tongue is with a set meal, which generally includes "mugi-meshi," a dish combining beef tongue, barley, rice, oxtail soup made with broth from the cooked tail, together with salt-and-miso pickled vegetables.

Zunda Mochi & Shakes: Zunda-mochi is a type of local sweet. It is made by coating rice cakes with a sweet, green bean paste. You can also try Zunda Shakes, a new way to enjoy zunda.

Sendai Castle Site: Sendai castle, or Aoba castle, was built by Masamune Date, the founder of what is now Sendai city. The buildings of Sendai castle were burned down by lightning and the Sendai air raid. Today, you can visit the remains, including the stone walls, and enjoy the views over the city and out to the Pacific ocean. The castle is a short (uphill) walk from the conference site.

Akiu-Onsen (hot spring): Akiu is the nearest hot spring resort to Sendai and can be reached by a regular bus service. The Akiu hot spring is historically renowned and is one of the three oldest hot springs in Japan.
